### SPELLING LIST #13

Rule: Add the prefixes **un-**, **dis-**, **in-**, and **mis-** to base words without changing any letters. When the last letter of the prefix is the same as the first letter of the base word, keep both letters. A word formed by one of these negative prefixes will mean the opposite of the base word.

**Spelling Homework:** Choose at least THREE of the following assignments. **Include all words above in each assignment.** On Monday your five times each assignment (based on your pre-test) is due. On Monday this sheet with parent initials confirming practice with these words is due. The test on these words will be on Monday.

- Write the list of words in alphabetical order.
- Write each word once using a fun color for the vowels and blue or black ink for the consonants. (You may print on this assignment since you are switching colors.)
- Type your spelling words. Use a different font and/or color for each one.
- Cut letters from old magazines, catalogs or newspapers. Glue them down to spell your words.
- If consonants = 1 and vowels = 2 find the value of each word.
- Make each word out of play-dough, toothpicks, or other household item.
- Use letter tiles from a game (or create your own) to spell each word.
- Write words as stair steps (as described in class by Mrs. Conrow)
- Write each word and then trace around each at least twice with crayon or marker (rainbow words)
- Any other spelling practice that helps you learn your words and the rule!
