Math Rotations: The children may have come home and

told

an lade

you that they are rotating between 4 stations during math class. The 4 stations are Teacher (work with teacher), Independent practice, game, and Aleks/fast facts.

Homework: Almost every night the children should be coming home with a "**My Homework**" page. The exceptions are on Friday night and when we are preparing for a test. When we finish a Chapter, the children will be bringing home a review page and a corrected pretest to use to prepare for their test. I would like all of the children to work on **ALEKS** for a total of 30 minutes a week at home. They will also spend around 15 min. most days in one of the math rotations. Together I hope to see **1 hour a week**.

4th Grade Math

Chapter 1: Place Value/comparing, ordering, rounding numbers. Tentative Schedule: Review/pretest on Thursday, Sept. 19 Chapter 1 test on Monday, Sept. 23

5th Grade Math

Chapter 1: Place Value through millions/comparing and ordering whole numbers/decimals through thousandths/

Tentative Schedule:

Review (Sectest on Tuesday, Sept. 24 Test on Wednesday, Sept. 25
