Staff In-service

## This week in Grade 4

This week in 4th Grade we focused on How God calls us to obey and make good decisions, worked through Unit 3 in Math & ALEKS, presenting a couple genius projects, Native Art, and Government systems including Native Tribes Government Systems.

This coming week we will be continuing unit 3 in Math focusing on Subtraction as an Algorithm, Regrouping & Multi-Step Problems.

In our Religion class, we will learn as a class how Ordinary Time is a time to grow as Jesus' disciples.

Our IB unit of inquiry is government systems and decisions affect equal opportunities and social justice. We will be exploring The Boldt Decision and Tribal Treaties within Washington state native tribes.

In ELA we will complete a new spelling list and continue reading Number the Stars with a focus on reading comprehension. In writing, we will be beginning our 1st draft on our realistic fiction writing by putting all our scenes together.

In our Art class, we will create Totem Poles in class and learn about their significance in Native Tribes of the PNW.
