This week in Grade 4

This week in 4th Grade we focused on God's Plan for Salvation, working through Unit 3 in Math & ALEKS, presenting a couple genius projects, Contrast in art, and Government systems including Article 1 in Washington State Constitution.

This coming week we will be continuing unit 3 in Math.

In our Religion class, we will learn as a class how God calls us to Obey and make good decisions.

Our IB unit of inquiry is government systems and decisions affect equal opportunities and social justice. We will be exploring native tribes government systems and the idea of Sovereignty. We will use Native Tribes of Washington to demonstrate this concept.

In ELA we will complete a new spelling list and continue reading Number the Stars with a focus on reading comprehension. In writing, we will begin drafting and work on setting and endings.

In our Art class, we will create projects to demonstrate contrast and symmetry using Native American artifacts as resources to create art.
